DisplayNote Montage
Easy to use & reliable screen sharing solution

DisplayNote Montage is a wireless screen-sharing solution that makes it easy for users to present, collaborate, and share content from their own devices to the main display, without the need for cables or complicated setup.

DisplayNote Montage is available on DISCOVER 3, EVOLVE DYNAMIC, and EVOLVE PRO screens.

Share from Any Device

Use dedicated apps for Windows, Mac, iOS, iPadOS, Android, and the web. Supports AirPlay, Miracast, and Google Cast for flexible screen sharing.

Cross-Network Support

Share wirelessly across multiple networks with **smooth, uninterrupted connectivity**, even in complex IT environments.

Touchback Control

Interact directly with shared content on the display. Works seamlessly with Windows, Mac, and Miracast.

Broadcasting

Send content from the main display to **all connected devices** in the room—boosting visibility and engagement.

Moderator Control

Teachers or moderators can **manage sessions remotely**, control access, and guide user interactions from their own device.

Local Connections

Enhance security by restricting sharing to **local networks only**, preventing unwanted external access.
